

TARGETS & ACTIONS

TO REDUCE OUR CLIMATE IMPACT

Climate ambition for 2030 (with a 2015 baseline)

SCOPE 1&3	 <p>LOGISTICS 2% of total emissions</p>	TARGET	ACTIONS
		-63% CO2e emissions	<ul style="list-style-type: none"> • Transition to fossil free fuel • Route optimisation and efficient driving practices • New technology
SCOPE 1, 2 & 3	 <p>OPERATIONS 4% of total emissions</p>	TARGET	ACTIONS
		-63% CO2e emissions	<ul style="list-style-type: none"> • Energy optimisation and improved thermal systems • Increase renewable energy usage • Waste reduction
SCOPE 3	 <p>PACKAGING* 2% of total emissions</p> <p><small>*For our own brands</small></p>	TARGETS	ACTIONS
		100% recyclable packaging (by 2025) 0% fossil-based virgin plastic	<ul style="list-style-type: none"> • Increase the recyclability of our packaging, including converting our plastic packaging into monomaterials where possible • Use less and better plastics by shifting to recycled or biobased plastic and convert to fibre solutions • Collaborate with stakeholders along the entire value chain to develop new sustainable packaging
SCOPE 3	 <p>FARMING 86% of total emissions & SOURCED WHEY 6% of total emissions</p>	TARGET	ACTIONS
		-30% CO2e emissions per kilo milk and whey	<ul style="list-style-type: none"> • Climate checks with data-driven advice to reduce CO2e emissions • Optimise farming practices and implement new technologies • Invest in research and development to develop, pilot and scale new solutions

REACHING CARBON NET ZERO BY 2050

...by reducing our CO2e emissions as much as possible and compensating for the remaining emissions. For example, by investing in tree planting or forest preservation or capturing carbon in the ground through carbon sequestration.
