After logging in to your SAP Ariba account, you must enter the Supplier Information Portal.

To find the Supplier Information Portal:

- Log in and find the 'Account Settings'.
- When in Account Settings, choose the 'Customer Relationship' from the top menu.
- Click on 'Supplier Information Portal' under the 'Current' section.
- Having entered the Supplier Information Portal, click on the link for the CIF template under the 'Catalogs' section .
- Save the Excel file on your computer as a local file for modifications.

3. How to fill out the CIF template?

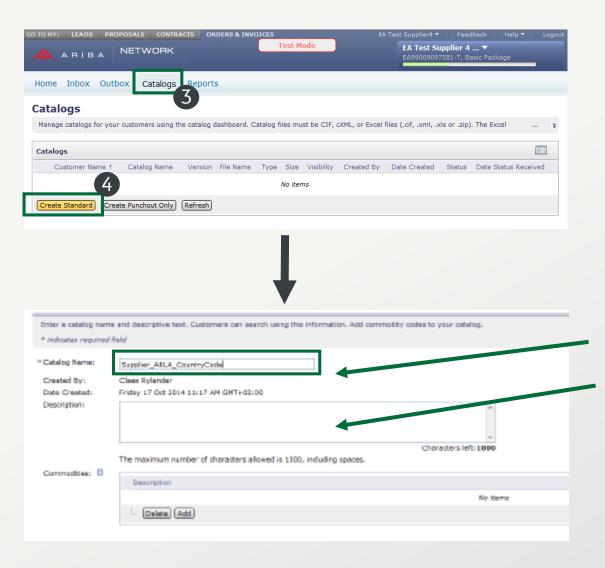

As a supplier, you need to fill out all mandatory fields for each item you want displayed in the e-Catalogue.

- 1 Every time you want to add an item, you need to add a new row.
- 2 Fill out all mandatory fields for this specific item.
- Fill out optional fields, if this data is available for you.
- When you have entered all data into the template, click on the 'GenerateCIF' button.
- 5 Save the modified CIF template on your computer.

If you need further explanation for the fields in the CIF template, find the <u>field description</u> guide from the Guide Portal on our website.

4. How to upload the CIF template for e-Catalogue creation?

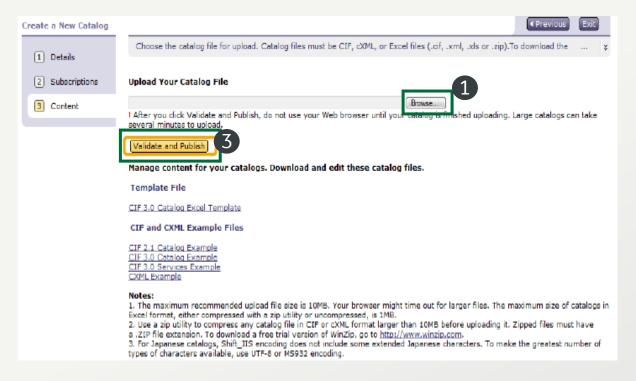

- 1 First, log in to your Ariba account.
- Once you are logged in, choose 'Catalogs' from the top menu.
- Now, you should have the opportunity to click on a 'Create Standard' button.
- 4 Next, fill out some standard information about the e-Catalogue you are about to create.
- The e-Catalogue must be named based on the standard 'Suppliername_ARLA_CountryCode' where CountryCode represents the country where the e-catalogue will be active

Under 'Description', you are expected to briefly describe the content of your e-Catalogue.

When finished, click 'Next' and continue with publishing the catalogue.

5. How to upload and publish the CIF template for e-Catalogue creation?

Having filled out the standard information about your forthcoming e-Catalogue, you are now expected to attach the CIF template that the e-Catalogue will be based on.

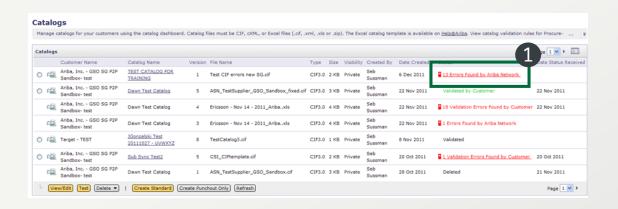

- 1 Click on 'Browse' to find the CIF template you have downloaded, modified and saved to your computer.
- Be sure to find the most recent version of the CIF template and attach it as your e-Catalogue file.
- When the attachment has been uploaded, click on 'Validate and Publish'.
- I The validation process can take several minutes depending on the size of the updated CIF file.

It is possible to upload other e-Catalogues while SAP Ariba is validating the previous ones.

6. How to correct errors in your e-Catalogue?

! The e-Catalogue cannot be validated if any errors have been detected by either SAP Ariba or by Arla Foods.

The field 'Status' shows if any errors have been detected, which are then highlighted in red.

To review and correct the errors for publishing:

- 1 Click on the red link to see details about the error.
- 2 Download the most recent version of the CIF template (see Slide nr 4).
- 3 Go to the CIF template saved in your computer correct the error(s) and save the file once again for uploading.
- Without creating a new version, change the current CIF template with the new, corrected one.

Find our 'How to update an e-Catalogue?' guide from our Guide Portal at www.arla.com/procurement/supplier-information/guide-portal
